CP Tech Center Webinar Program

Ideal for DOT Engineers, City/County Planners, Safety Mgrs.

All programs are at 12 Noon (Central)

July 21st

Aug. 18th

Sept. 22nd

OUR WEBINAR PROGRAM:

July 21st – Achieving Smoothness in Concrete Pavement Construction

August 18th – Concrete Pavement Joint Design, Layout and Construction

September 22 - Resiliency/Resilient Pavement Systems

With all our Webinars: we provide our audience with technical / educational programs that provide insights as well as real world application experience.

Professional Development Hours are Available for these Webinar Programs.

Have an idea for a Webinar?: We welcome ideas and concepts for upcoming webinars. We usually plan 4-6 months ahead. If you suggest a webinar, please provide some detail, and share what you would want attendees to know at the end of the webinar.

Can we suggest someone to present?
Yes. If you have seen a presentation that would be a good topic for our concrete pavement / DOT / Consultant audience, please share the presenter's name, email and title of the presentation.

Send Ideas & Suggestions to: smueller@acpa.org

The Webinars are on Tuesdays at 12 Noon (Central), space is limited please register today.
