CONSTRUCTION OPEN HOUSE

THIN PCC OVERLAY

Wednesday, August 22, 2018
8:30AM to 3:30PM EDT

The Indiana Department of Transportation (INDOT) is constructing thin bonded concrete overlays with macro-synthetic fiber reinforcement to extend the service life of pavement preservation projects.

The Indiana Chapter - American Concrete Pavement Association (ACPA), in cooperation with INDOT, is conducting an educational construction open house on August 22, 2018 at:

INDOT’s Greenfield District Office, 32 South Broadway St., Greenfield, IN 46140

8:30 AM Registration
9:00AM Technical Sessions
  Overview of Thin PCC Overlays
  Case Studies and Lessons Learned
  Maintenance of Traffic Options/Solutions
11:15 AM Busses Depart for Construction Site Visits
  SR 9 south of Shelbyville
  SR 3 north of New Castle
3:30 PM Busses Return to INDOT Greenfield District Office
  Adjourned

This construction open house/workshop will benefit state DOT and local agency personnel, project designers, inspectors, consultants, contractors, suppliers and academia. Up to three PDH’s for civil engineering continuing education credits may be earned by attending this event.

Attendees will be required to bring their own PPE (safety vests, hardhats, proper footwear). Box lunches will be available.
